

Dun & Bradstreet

Business Data & Analytics for Transportation Planning

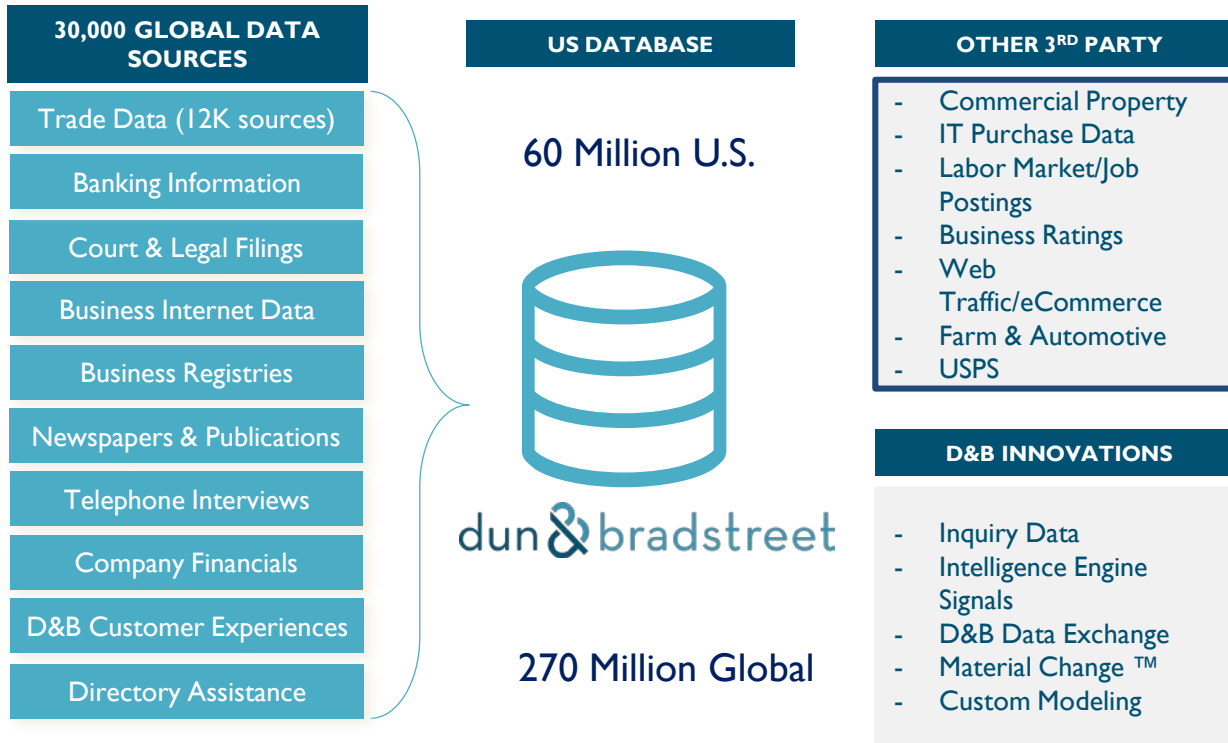

Presented by Chip Rogers

GAMPO Board Meeting

September 25, 2017

dun&bradstreet

World's largest business activity database providing insights for establishing relationships with employers in your region

Based on the past and the present, what will the future look like?

Key Highlights by Utilizing D&B Data for Industry, Employment, and Time-Series Trend Modeling

- ❖ **Employment Dynamics**: tracking every business and its employment data at the site level through our D-U-N-S Number.
- ❖ **Market Segmentation**: conduct model analysis in multiple dimensions such as Geographic, industry segmentation, longevity & sustainability.
- ❖ **Predicting the Future**: in addition to the most complete content of current marketplace views, Dun & Bradstreet offers government agencies access to a 25-year historical archive database providing year by year extracts of our entire US Database.

Dun & Bradstreet's database is dynamically maintained with >5.0M daily changes

- *Standard Data, Analytical Data, Predictive Data*

Standard Data

Address
Geodata
Industry (SIC & NAICS)
Employees (total & on-site)
Sales & Revenue
Age of Business

Analytical Data

Legal Structure
Diversity / Small Business Classifications
Import / Export
Employment Trends
Sales Trends
Owns vs. Rents
Square Footage
Business Moves / Migration Data

Predictive Data

Failure Predictors
Viability Indicators
Financial Delinquency Predictors
Growth/Contraction models.
Site Location risk indicator

Dun & Bradstreet's data offers for Transportation, MPOs and DOTs targets 3 prime goals:

- *Data Completeness, Data Accuracy, Data Utility** (flexibility of use)

Completeness

DATA AVAILABILITY COMPLETENESS	
SALES FIGURES	98.86%
EMPLOYMENT FIGURES	99.56%
INDUSTRY CODE (SIC/NAICS)	93.51%
ADDRESS DATA	100.00%
TELEPHONE NUMBERS	82.94%

Accuracy

DATA ACCURACY
5.0M DAILY CHANGES
NIGHTLY VALIDATION
RANDOM SAMPLING QA AUDITING
COMPARATIVE TESTING
INTERNAL ACCURACY THRESHOLD ***

Utility*

DATA FORMAT / UTILITY
FLAT FILE DATA
API-FED DATA
ON LINE RESEARCH & DOWNLOADS
WEB-HOSTED BI TOOLS
TIME-SERIES ARCHIVE db

* Multi-agency or Enterprise access database is recommended

State of Georgia Economy

There are 562,777 Employer Locations in Georgia

D&B is Tracking Approximately 5.4M Employees in Georgia

D&B Data Solution Example I

Rome-Cartersville Development Corridor (RCDC)

- **The need for improved access and connectivity to support economic development:** Enhance access to existing and future development.
- **The need for an improved truck route:** Accommodate growing freight traffic and relieve existing truck congestion on other roadways.
- **The need to provide better local access:** Increase mobility and connectivity in the corridor and surrounding areas.
- **The need for an improved connection to I-75:** Support existing industry and planned growth in Floyd and Bartow Counties

Businesses & employees based on age of the business

Age of Business	Sites	Sum (Employees Here)
Less than 5 years	373	1,261
6 - 10 years	531	1,128
11 - 25 years	391	2,312
26 - 99 years	98	956
100+ years	270	3,761
TOTAL	1,663	9,418

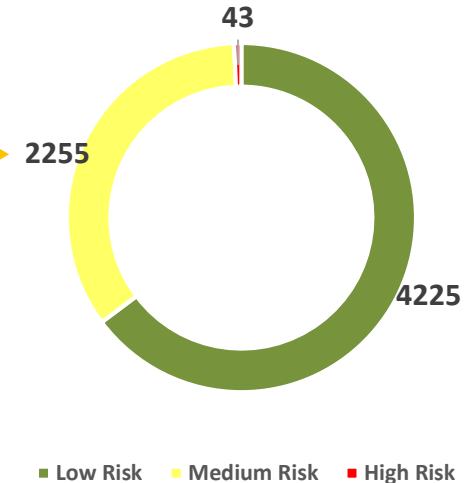

Tracking Financial Stress of Businesses near RCDC

of Employer Locations

Employment by Financial Stress

80% of all business failures are from FSS 4 & 5. 63% from 4

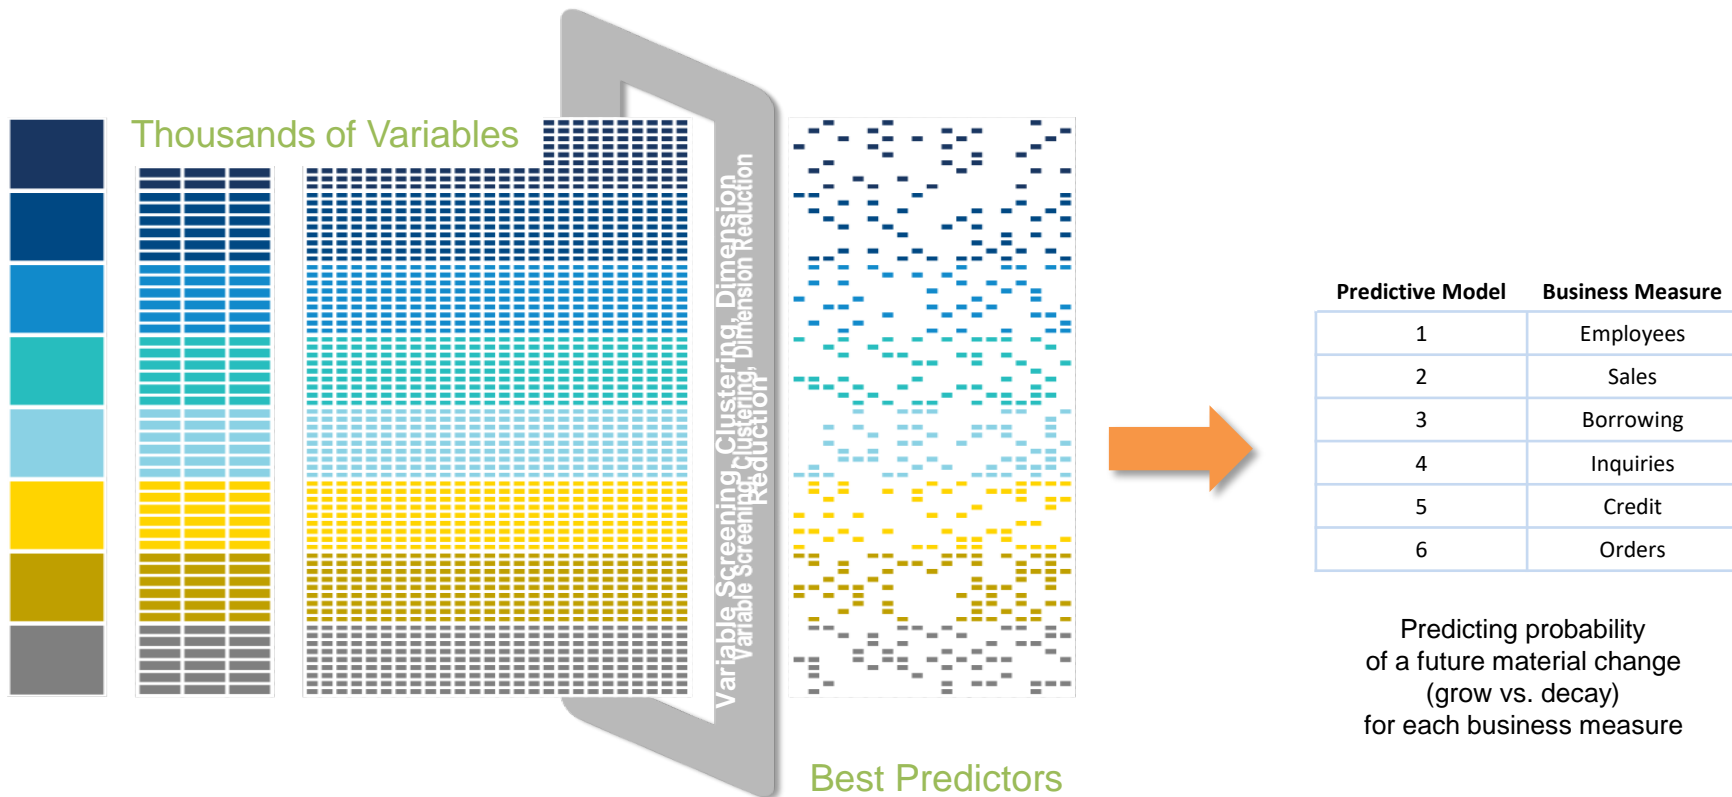

*Excludes gov't locations where FSS is not available

The **Financial Stress Score™** predicts the likelihood that a business will seek legal relief from its creditors, cease business operations without paying all its creditors in full, voluntarily withdraw from business operation and leave unpaid obligations, go into receivership or reorganization, or make an arrangement for the benefit of creditors over the next 12 month period, based on the information in D&B's files.

Introducing Material Change

We analyzed and filtered tens of thousands of variables that are most predictive, and developed 6 measure-specific models

Material Change Value	Workers Comp / Labor/ Layoff Aversion / Economic Development	Material Change Value	Workers Comp / Labor/ Layoff Aversion / Economic Development
Increase in Scale	Businesses in this segment are more likely to grow in spending, borrowing and increase their number of employees / jobs or increase or expand their facility size	Decrease in Scale	Businesses in this segment are more likely to reduce borrowing and number of employees / jobs.
Leverage for Growth	Businesses in this segment are more likely to increase their borrowing and maintain or grow their number of employees / jobs or increase or expand their facility size	Increase in Borrowing	Businesses in this segment are more likely to increase their borrowing and maintain or reduce their number of employees / jobs.
Organic Growth	Businesses in this segment are more likely to increase their number of employees / jobs in the next year , typically without increasing their borrowing significantly.	Spend Growth	Businesses in this segment are more likely to increase their spending, fluctuate total employment numbers , and maintain or expand their borrowing.
Increase in Demand	Businesses in this segment are more likely to grow their number of employees and maintain or grow their spending.	Early Signs of Decay	Businesses in this segment are more likely to maintain their number of employees/jobs, but reduce their borrowing or spending.
Decrease in Demand	Businesses in this segment are more likely to reduce spending and borrowing.	Stable	Businesses in this segment tend not to experience significant change in employee or facility size, spending, or borrowing in the next 12 months.

Material Change™ is an Anticipatory Analytic measuring a businesses current trajectory – positive or negative

D&B Material Change™ for the Rome project

D&B Data Solution Example 2

I-285/ & SR 400 Improvements (Atlanta)

- The project will improve 4.3 miles of I-285 from west of Roswell Road to east of Ashford Dunwoody Road and 6.2 miles along SR 400 from the Glenridge Connector to Spalding Drive.
- Designed to help reduce traffic congestion and enhance safety in the area near the I-285/SR 400 interchange in metro Atlanta.
- This priority project adds new flyover ramps, new collector-distributor lanes and other facilities to aid east-west travel along I-285 and north-south travel along SR 400.
