In General

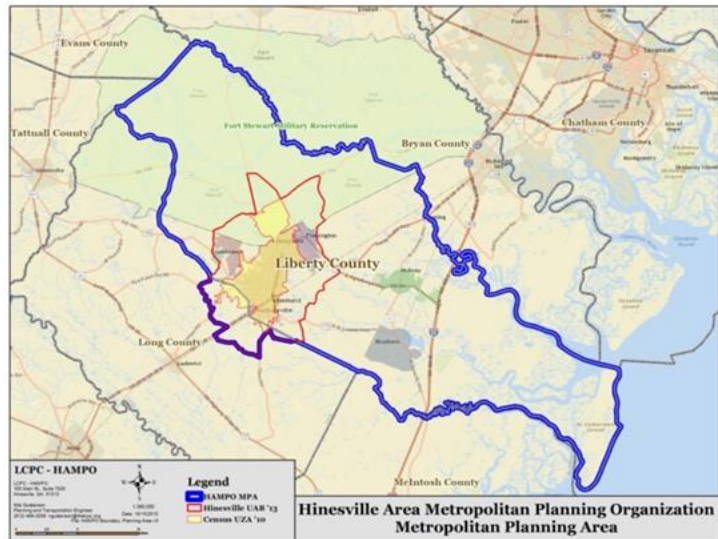

The Liberty Consolidated Planning Commission is interested in contracting with a qualified consultant to augment staff in administering and performing technical work elements of HAMPO's UPWP for Fiscal Year 2024 with up to two optional one-year extensions. The preferred qualifications of the consultant, in order of priority are previous experience working with MPO's in Georgia, previous experience preparing reports required by FHWA and GDOT from MPO's, and qualifications of the project team.

Regional Context and Existing Conditions

In 2003, HAMPO was established pursuant to federal law to address transportation planning within Liberty County and the urbanized portions Long County, including Fort Stewart and the municipalities of Hinesville, Allenhurst, Flemington, Gum Branch, Midway, Riceboro and Walthourville. In 2005, the Memorandum of Understanding with the Georgia Department of Transportation, affirmed by Governor Perdue, designated the Liberty Consolidated Planning Commission (LCPC) as the recipient and management entity for all planning funds and activities associated with HAMPO.

Like many communities throughout the United States, the Hinesville area has a variety of challenges related to bicycle and pedestrian concerns. In November 2022, HAMPO completed its Non-Motorized Plan and Transit Operations Plan update as a supplement to the 2045 MTP and the substance of this study should be incorporated into the 2025-2050 MTP.

Liberty Transit is the public transportation provider for the Section 5307 urbanized area and maintains a “fixed route” bus service currently providing 3 routes within Hinesville, Flemington and Walthourville.

The Fly America requirements apply to the transportation of persons or property, by air, between a place in the U.S. and a place outside the U.S., or between places outside the U.S., when the FTA will participate in the costs of such air transportation. Transportation by a foreign air carrier is also permissible if there is a bilateral or multilateral air transportation agreement to which the U.S. Government and a foreign government are parties and which the Federal DOT has determined meets the requirements of the Fly America Act. Micro-purchases are defined as those purchases under \$2,500. These requirements do not apply to micro-purchases. The Fly America requirements flow down from FTA recipients and sub-recipients to first tier contractors, who are responsible for ensuring that lower tier contractors and subcontractors are in compliance. The relevant statutes and regulations do not mandate any specified clause or language. FTA proposes the following language.- The Contractor agrees to comply with 49 U.S.C. 40118 (the "Fly America" Act) in accordance with the General Services Administration's regulations at 41 CFR Part 301-10, which provide that recipients and sub-recipients of Federal funds and their contractors are required to use U.S. Flag air carriers for U.S Government-financed international air travel and transportation of their personal effects or property, to the extent such service is available, unless travel by foreign air carrier is a matter of necessity, as defined by the Fly America Act. TERMINATION - 49 U.S.C. Part 18, FTA Circular 4220.1F

a. Termination for Convenience (General Provision) The HAMPO may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the HAMPO to be paid the Contractor. If the Contractor has any property in its possession belonging to the HAMPO, the Contractor will account for the same, and dispose of it in the manner the HAMPO directs.

b. Termination for Default [Breach or Cause] (General Provision) If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the HAMPO may terminate this contract for default. Termination shall be effective by serving a notice of termination on the contractor setting forth the manner in which the Contractor is in default. The contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract. If it is later determined by the HAMPO that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the HAMPO, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) The HAMPO in its sole discretion may, in the case of a termination for breach or default, allow the Contractor [an appropriately short period of time] in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions. If Contractor fails to remedy to the HAMPO's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within [ten (10) days] after receipt by Contractor of written notice from the HAMPO setting forth the nature of said breach or default, the HAMPO shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude the HAMPO from also pursuing all available remedies against Contractor and its sureties for said breach or default.

d. Waiver of Remedies for any Breach In the event that the HAMPO elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by the HAMPO shall not limit the HAMPO's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

f. Termination for Default (Supplies and Service) If the Contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the HAMPO may terminate this contract for default. The HAMPO shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the HAMPO.

If, after serving a notice of termination for default, the HAMPO determines that the Contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of the contractor, the HAMPO, after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

EXHIBIT H: PROTEST POLICY AND PROCEDURES

RFP 23-01

CONSULTING SERVICES FOR PROGRAM ADMINISTRATION AND TECHNICAL ASSISTANCE

Policy

The HAMPO requires that all prospective contractors be accorded fair and equal consideration in the solicitation and award of contracts. To that end, any interested party shall have the right to protest alleged inequities in the procurement process and to have its issues heard, evaluated and resolved administratively. “Interested party” is defined as an actual or prospective offeror whose direct economic interest would be affected by the award of a contract or by failure to award a contract.

Chapter VII, Sec. 1.b. of Federal Transit Administration (FTA) Circular 4220.1F addresses protests where federal funds are involved. FTA will only review protests regarding matters that are primarily of Federal concern.

Submittal Procedures

An interested party wishing to protest a matter involving a proposed procurement or contract award shall file a written submission with the HAMPO Executive Director by certified mail or other delivery method by which receipt can be verified. Electronic submission of protests is not acceptable unless an original signed copy of the protest is received by the HAMPO Executive Director within 24 hours (not including weekends and holidays) after receipt of the electronic copy. The HAMPO Executive Director may, however, permit the electronic provision of supplemental information after the initial protest submittal. The protest shall include, at a minimum:

1. The name and address of the protesting party and its relationship to the procurement sufficient to establish that the protest is being filed by an interested party;
2. Identity of the contact person for the protestor, including name, title, address, telephone, fax and e-mail addresses. If the contact point is a third party representing the protestor, the same information must be provided, plus a statement defining the relationship between the protestor and the third party;
3. Identification of the procurement;
4. A description of the nature of the protest, referencing the portion(s) of the solicitation involved;
5. Identification of the provision(s) of any law, regulation, or other governance upon which the protest is based;
6. A complete discussion of the basis for the protest, including all supporting facts, documents or data;
7. A statement of the specific relief requested; and
8. A notarized affirmation by the protestor (if an individual) or by an owner or officer of the protestor (if not an individual) as to the truth and accuracy of the statements made in the protest submittal.

The protestor is solely responsible for the completeness and validity of the information provided. Any documents relevant to the protest should be attached to the written submission. Documents which are readily available on the internet may be referenced to an appropriate link.

Protests shall be submitted in accordance with the requirements of this Protest Policy and Procedures and any directions included in the solicitation and shall be addressed to the HAMPO Executive Director. Unless otherwise specified in the solicitation, the written protest shall be accompanied by an electronic copy (CD)

in PDF format. In case of a variance in the content of the written and CD submittals, the written version shall prevail.

The Contracting Officer or an assigned Contracting Officer in cases where the conduct of the Contracting Officer for the procurement is called into question, shall conduct the administrative processing of protests filed with HAMPO or with FTA, and shall be responsible for the processing, documenting a protest, and recommending a decision to the HAMPO Executive Director.

The HAMPO Executive Director shall request legal counsel to review and advise concerning any legal issues involved in a protest.

The HAMPO Executive Director shall be responsible for overseeing the decision process and for the content of the decision. The HAMPO Executive Director shall ensure that all relevant parties within HAMPO have been involved in the decision-making process and shall, as circumstances require, obtain the concurrence of the Mayor, City Council or other personnel in a decision prior to its issuance.

HAMPO may decide a protest solely upon the written submission. The protest submission should, therefore, include all materials necessary to support the protester's position. Additional or supplemental materials may only be submitted at the request of, or with the permission of, the HAMPO Executive Director.

If the procurement uses federal funds, a notice of receipt of a protest must be given to the appropriate regional office of the Federal Transit Administration (FTA). The form of notice may be specified by the regional office.

Protests of the Solicitation Process

A protest related to the technical scope or specification, terms, conditions, or form of a solicitation must be received no later than ten (10) working days prior to the date established for opening of bids or receipt of proposals; if the protest addresses an amendment to the solicitation, it must be received no later than ten (10) working days prior to the date established for opening bids or receipt of proposals or five (5) working days after the date of issuance of the amendment, whichever is later; in no event, however, may a protest of this nature be submitted after bids or proposals are received. The protest must conform in all respects to the requirements set forth above.

Upon receipt of such a protest, the HAMPO Executive Director shall notify all prospective offerors and other known interested parties of the receipt and nature of the protest and shall post a notice of the protest on the procurement web page. Unless the HAMPO Executive Director determines that delay will be prejudicial to the interest of HAMPO or that the protest patently lacks substantial merit, the solicitation process will be extended pending resolution of the protest.

Protests will be considered and either denied or sustained, in part or in whole, by the HAMPO Executive Director in writing. A written decision specifying the grounds for sustaining all or part of or denying the protest will be transmitted to the protestor prior to the receipt of bids or proposals in a manner that provides verification of receipt.

A notice of the decision shall be provided to all parties given notice of the protest and posted to HAMPO's procurement web page.

Should the protest be upheld in whole or in substantial part, the Contracting Officer may either (1) amend the solicitation to correct the document or process accordingly; or (2) cancel the solicitation in its entirety. If

the solicitation is amended, the time for receipt of bids or proposals shall be equitably extended to permit all participants to revise their bids or proposals to reflect the decision.

If the protest is denied, the solicitation shall proceed as if the protest had not been filed, unless the protester pursues the protest with the Federal Transit Administration (FTA) as defined below, or otherwise appeals the decision of the HAMPO Executive Director, as defined below.

Protests received by HAMPO after the time periods specified above shall be considered untimely and may be denied on that basis unless the HAMPO Executive Director concludes that the issue(s) raised by the protest involves substantial prejudice to the integrity of the procurement process.

Protests of the Evaluation Process

All bidders/proposers will be notified of the recommended award upon a determination of a recommendation to be made to the Policy Committee. This notice will be transmitted to each proposer at the address contained in its proposal form and shall be posted on the web procurement page. Transmittal may be by electronic means or by hard copy.

Any proposer whose proposal is valid at the time of the staff determination may protest the recommended award on one or more of the following grounds:

1. That the recommended awardee does not meet the requirements of the solicitation;
2. That the bid or proposal recommended for acceptance does not meet the criteria of the solicitation or award;
3. That the evaluation process conducted by HAMPO is improper, illegal, or the decision to recommend award is arbitrary and capricious.

The protest must conform in all respects to the requirements set forth above. The protest must be received by HAMPO at the address specified in the solicitation, no later than five (5) calendar days after the date such notification is publicly posted or sent to the bidder or proposer, whichever is earlier. A written decision stating the grounds for allowing or denying the protest will be transmitted to the protestor and the proposer recommended for award in a manner that provides verification of receipt. Such decision shall be final, except as provided below or by applicable law or regulation.

Evaluation of Protests

A protest decision should ordinarily be written and published within ten (10) working days of receipt of the protest. The HAMPO Executive Director may extend the response period if additional time is required to gather and evaluate information necessary for the decision or for other good cause.

Upon receipt of a protest, the Contracting Officer shall notify parties involved in the procurement as identified above, and such Board personnel or others as may be appropriate or necessary to determine the validity of the protest. Copies of the protest submittal, or portions thereof, may be provided to the notified parties as appropriate.
